OBJECTIVE:

As a passionate, dedicated, and results-oriented Full Stack Developer, I am seeking practical projects where I can apply my extensive knowledge in programming and web development. Committed to writing clean,efficient, and maintainable code, I am eager to collaborate with dynamic teams, contribute to innovative solutions, and grow in this fast-paced field.

SKILLS:

- Proficient in Core Java with a strong understanding of OOPs and Collection Framework
- Experienced in Advanced Java concepts, including JDBC and Hibernate
- Hands-on experience in SQL and Database Management
- Sound knowledge in AWS and cloud technologies
- Proficient in Web technologies like HTML, CSS, JavaScript, and React JS
- Excellent in Data Structure and Algorithm
- Strong Communication and Team Leading skills
- Adaptable and quick learner with a keen interest in emerging technologies

EDUCATION:

BCA (74%)
Shivaji University, Kolhapur, 2019-2022

HSC (54%)
Maharashtra State Board, 2018-2019

SSC (79%)
Maharashtra State Board, 2016-2017

PROJECTS:

1. Tourism Management System (2 Months)

Designed and developed a user-friendly website to help tourism-related businesses manage their operations such as reservation, booking, and payments.
- Back-end: Core Java, SQL (MySQL) Database
- Role: Front-end
- Team Size: 4 members

2. Village Website (1 Week)

Developed an online platform to provide information and resources to residents and visitors of my village including details about local businesses, community events, and government services.
- Role: Front-end: HTML, CSS, and JavaScript

CERTIFICATIONS:

- Completed Java Full Stack Developer course (6 months)
- Achieved many certificates related to my technologies from Great Learning Platform
- Participation in Git and GitHub , Problem Solving in DataStructure

HOBBIES:

- Passionate about gaining more knowledge about emerging technologies
- Enthusiastic about problem-solving and learning new skills

ADDITIONAL INFORMATION:

- Familiar with Agile and Scrum methodologies
- Experience with version control systems like Git
- Understanding of CI/CD pipelines
